LAYOUT 2026

10:00 - 19:00	Exhibition
10:45 - 11:00	Opening and welcome
11:00 - 11:15	Nora Wisa - International Sales Manager - Nedap Designing Smart Access for Smart Buildings
11:15 - 11:45	Ali Ghosein - General Manager Middle East - Wisi The Evolution Of TV Distribution From Analog Networks To PTV, OTT And Fiber.
11:45 - 12:15	Ianne Rotimi - Datacenter Cybersecurity Program & Product Manager-Uptime 45 Years of Digital Infrastructure Depth: The Only Full-Stack Cybersecurity Coverage Built on Three Decades of Infrastructure Truth.
12:15 - 12:45	Amr Nour - CEO IoT Misr - IoT Misr Design. Build. Monitor. Sustain. — The IoT Misr Data Center Story
12:15 - 12:45	Vertiv & IoT Misr Signing Ceremony
12:55 - 13:55	Break
	Panel discussion AI Driven Networks and Cybersecurity
	— Tarek Gamal Eldin - Business Development Director - ACT- Advanced Computer Technology (Moderator)
	— Walid Fahmy - Business Solutions Architect - CISCO
13:25 - 14:10	— Mohamed El Garf- Regional SecOps specialist Egypt& East Africa - Fortinet
	— Eslam Mongy - Principle Presales SE - HPE Juniper Networking
	— Mohamed Mansi - Senior Infrastructure System Engineer - CommScope
	— Jasseph Sidhom - Business Unit Director - Shaker Consultancy Group & Advisory Committee
14:10 - 14:40	Annas Elzoughabi - Architecture & Engineering Manager for Western Arabia (Middle East) - AXIS Designing For What's Next
14:40 - 15:10	Ahmed Yehia - Market and Strategy Manager for META - Lensec How LENSEC Uses AI in the Physical Security Industry
15:00 - 15:20	Emad Raouf- Sales Manager Egypt - Ipseteck Egypt's Digital Transformation Through AI Vision
15:20 - 15:50	Bahaa Ismail - Chief Technology Officer (CTO) - Integrated Technics Smarter Buildings, Smarter Meetings
15:50 - 16:20	Andre Herbst Regional Sales Director META - Mohamed Elgendy (CAIO) & (CISO) atISD - Barcoo Transforming Control Rooms with Barco CTRL: Next-Gen KVM over IP & RAMSys Suite
16:20 - 16:50	Mostafa Kamel - Senior Technical Engineer - Contag Revolutionizing Fire Safety For Egypt's Telecom Future
16:50 - 17:05	Ahmed Mostafa - Egypt, Africa & Levant Sales Manager - EMS - LDA LDA showcased by EMS
17:05 - 17:20	Martin Mao - International Sales Marketing Manager - EMS - Leyard Leyard introduction
	Panel discussion Smart City at the edge of AI
	— Ahmed Abd Elwhab - Egypt Post- Infrastructure General Manager. (Moderator)
	— Amr nour - IoT Misr - CEO
17:20 - 18:05	— Mennan el Kallouby - Siemens - VP Business Development, Strategy & Sustainability
	— Mohamed Ahmed Arafa - Head of sales Industrial Automation AVEVA Software North Africa & LevantVA
	— Ahmed Abd El Azeem - Broadband Director - NTRA
	— Dr. Mohamed Tawfik - Founder & Managing Director of Tawfik Consultancy & Committee President
18:05 - 18:35	Closing - Wrap Up - End of Day 1

10:00 - 19:00	Exhibition
10:45 - 11:00	Opening and welcome
11:00 - 11:20	Magdy Armia - General Manager - Advanced Technology
11:20 - 11:40	El-Saeed Sayed - Technical Sales Rep - Saudi Arabia - CPI Mastering Power Distribution for High-Density GPU and AI Applications
11:40 - 12:00	Mohamed Mansi - Senior Infrastructure System Engineer - CommScope High-Speed Network Demands
12:00 - 12:20	Haroun Mourad - North Africa & Levant Presales Leader - Secure Power and Data Centers - Schneider From Traditional Data Centers to AI Factories: How 6 AI Attributes Change Data Center Design
12:20 - 12:40	Mohamed Sherif - Chairman & CEO of Comatrol (Computer & Control Systems) - Comatrol One Integrated System: Rethinking Fire, Safety, and Physical Security for Data Centers
12:40 - 13:00	Satyan Abraham - CEO & Nemer Madardas - Regional Director MENA - Nexus From Infrastructure to Intelligence Building the intelligent operation layer for next Generation AI infrastructure
13:00 - 13:30	Break
	Panel discussion AI Innovations in Physical Security
	- Maged Maher - Commercial Excellence Director - Audio technology (Moderator)
	- Mohamed ElNashar - Channel Business Manager - Levant and North Africa - Milestone Systems
13:30 - 14:15	- Khalid Kamaraldawla - Regional Sales Director, META, LENSEC
	- Mohamed Sabry - Deputy Manager of the Communication and Security Systems Department - ECG Engineering Consultants Group S.A.
	- Omar Shawky - Telecommunications Group Manager - Shaker Consultancy Group
14:15 - 14:45	Mostafa Ismail - Field Service Lead Engineer, Thermal, North East Africa - Vertiv Cooling the loop, Thermal Management for HPC Loads
14:45 - 15:05	Moamen el Bokhary - Regional Manager - Sunbird
15:05 - 15:35	George Dubien - MEA Sales Director - Datacenters - Exagate Beyond the Rack: The Evolution of Intelligent Data Center Infrastructure
15:35 - 15:55	Mohamed Attia - Managing Director - Egyptian Engineering Projects Co. - Quality Designing the Visitor Experience How AV, Digital Technology and AI Are Transforming the Way People Experience Places
15:55 - 16:15	John gamal - Sales Manager - Nvent Powering and Protecting the AI Revolution
	Panel discussion AI Data Center : The Race Behind AI
	- George Dubien - Sales & Marketing Director, MEA - Boreas & Exagate (Moderator)
	- Khaled Saadi - Communication and Security Department Manager, Engineering Consultants Group S.A. & Advisory Committee
16:15 - 17:00	- Ehab El Hefnawy - Regional Director for Northeast Africa, Vertiv
	- Emad Talaat - ICT Infrastructure Senior Consultant, ATD Professional, CDCE, Raya Network Solutions
	- Mohamed Shalaby - Secure Power & Datacenter Sales Head - NEAL, Schneider Electric
	- Pierre Magdi - Director, Business Development, East Africa, Uptime
17:00 - 17:30	Egyptain Engineers initiation
17:30 - 18:00	Closing -Wrap Up - End of Day2

DR. MOHAMED TAWFIK

founder & managing director of
Tawfik Consultancy & Committee
President

Dr. Mohammed Tawfik has extensive experience with ICT engineering projects across the region. During his 33 years of professional carrier, he participated in various types of projects and in different locations in the USA, Africa, the Far East, and the Middle East including Saudi Arabia, Qatar, Iraq, Syria, and Egypt.

His involvement in several mega projects, with different functions, has granted him the skills required to manage mega-size projects. He has been successfully leading design teams to deliver unique projects despite of challenges.

Dr. Tawfik successfully led the design of ICT Security, and ELV systems for many mega projects. He also led the delivery of many infrastructure #projects introducing the concept of FTTH in Egypt. His participation starts at the early stage of project concept design and continues through the different design and construction stages up to handing over.

His educational background: Ph.D. in EE (AI Applications), Kansas State University, Manhattan, KS, USA, 2000 / M.Sc. in EE (Microprocessor Applications), Zagazig University, Egypt, 1993 / B.Sc. in Electric Engineering, excellent with honor, Cairo University, Egypt, 1989.

AMR NOUR

Chief Executive Officer

Amr Nour - CEO IoT Misr - I believe my purpose today is to help IT teams make smarter technology choices, ones that truly improve how their organizations perform and compete. With over 15 years of experience in the IT industry, I've worked across both the technical and sales sides of the field. I began my career as a Technical Implementer and Support Engineer, collaborating with some of Egypt's largest enterprises and tackling complex challenges across infrastructure and applications. My expertise spans infrastructure & application monitoring, networking, cybersecurity, and hardware infrastructure — a combination that naturally led me to Pre-Sales and IT Consultancy, where I could bridge technology and business needs. Today, as CEO & co-founder of IoT Misr, I focus on guiding organizations to identify and implement the solutions that deliver the best performance, ROI, and long-term value.

AHMED MOSTAFA

Egypt, Africa & Levant Sales Manager

Ahmed Mostafa - is the Africa & Levant Manager at LDA Audio Tech, a leading European manufacturer of Public Address and Voice Alarm (PAVA) systems. With more than 15 years of experience in the low-current industry, he has built a strong background across a wide range of ELV solutions, including security, communication, and life safety systems.

Over the years, he has specialized in EN54-certified Public Address and Voice Alarm (PAVA) systems, developing extensive expertise in designing, promoting, and delivering compliant voice evacuation solutions for critical infrastructure projects. Throughout his career, he has worked closely with consultants, system integrators, contractors, and end users across Africa and the Middle East, supporting projects from concept and system design through implementation.

His expertise covers transportation, healthcare, hospitality, commercial developments, education, and smart city projects, helping customers achieve international compliance while meeting project-specific requirements According to EN54. He is passionate about sharing technical knowledge, building long-term partnerships, and supporting the engineering community through training, seminars, and industry events. He regularly represents LDA Audio Tech at regional exhibitions and consultant forums, promoting best practices and the latest innovations in life safety and voice alarm technology related to EN54 standard.

As Africa & Levant Manager, he is focused on expanding LDA Audio Tech's presence across Africa and the Levant while providing exceptional technical and commercial support to partners and clients.

His mission is to help create safer buildings and smarter infrastructure through innovative, reliable, and fully compliant EN54 Public Address and Voice Alarm solutions.

MOSTAFA KAMEL

Senior Technical Engineer

Mostafa Ismail- Field Service Lead Engineer, Thermal, North East Africa
Mostafa Ismail is Vertiv's Thermal Lead Engineer for Thermal Products across the North East Africa zone, a role he has held since July 2024. He brings over a decade of progressive experience in data center electromechanical and thermal engineering, built across leading regional facilities and technology providers.

Prior to Vertiv, Mostafa spent over two years at Schneider Electric as a Senior Field Engineer, responsible for the company's cooling solutions, including the Uniflair and APC product lines — the foundation of his specialization in precision cooling. Before that, he held progressively senior roles at Raya Network Services, advancing from Senior Electromechanical Engineer to Team Leader Engineer within Data Center Facilities design, installation and management, following an earlier position as Electromechanical Engineer at Raya Data Center. His early career included mechanical maintenance engineering within an industrial manufacturing environment.

Mostafa holds a Bachelor of Engineering (B.E.) in Mechanical Engineering from Alexandria University. His career reflects a consistent trajectory through data center facilities management into specialized thermal and precision cooling engineering, culminating in his current regional technical leadership role at Vertiv.

LANRE ROTIMI

Datacenter Cybersecurity Program &
Product Manager

Lanre Rotimi – Datacenter Cybersecurity Program & Product Manager

As Cybersecurity Program Manager at Uptime Institute, Lanre Rotimi operates at the intersection between cyber resilience, critical infrastructure, and economic continuity. He leads the design and deployment of cybersecurity capabilities for the data centres on which the global economy increasingly depends. In an era of profound interdependence between physical systems, IT, OT and IoT, his work centres on treating cyber risk not as a discrete technical issue, but as a question of systemic resilience, operational trust, and national capability.

For more than a decade, he has advised nation states, hyperscalers and colocation providers on cyber resilience, governance, and operational continuity, while supporting specialist teams across more than 120 countries. He helps boards and operators turn complex technical exposure into clear, defensible decisions grounded in recognized frameworks and real-world operating discipline.

Lanre also speaks at international forums, leads webinars, publishes regularly, and has trained and mentored more than 100 cybersecurity professionals

Global Leader in LED Display Technology and Solutions

Abgen Established in 2001, Abgen (SZSE: 300389) is the world's leading LED display products and service supplier. Abgen's products are exported to more than 140 countries and regions in America, Europe, Australia, Asia, Africa, etc., and have been used in the Presidential press conference, CII, FIFA World Cups, NBA games and Times Square.

Delivering more than 60,000 installations, Abgen produces best in class products for rental & staging, commercial display, data visualization, conference display, consumer-grade displays and other areas with the export volume of LED products being NO.1 for 12 consecutive years.

Abgen advocates green, low-carbon, energy-efficient and environment-friendly production with sustainable development as the enterprise tenet. It has been honored as "National High-tech Enterprise", "Enterprises that Keep Contract and Value Credit in Guangdong Province" and "Shenzhen Prestigious Brand", and certified by ISO 9001 quality management systems, ISO14001 environment management systems, QC080000 Hazardous Substance Process Management System, OHSAS18001 Occupational Health and Safety Assessment Series. Most of the Abgen products are qualified for European and American standards like CE, RoHS, ETL and EMC.

With headquarter in Shenzhen and manufacturing base in Huizhou, now Abgen has more than 3,000 staff and 18 overseas subsidiaries and offices, making its collective knowledge and expertise available to customers worldwide. The advanced automatic production machines, modernized laboratories and professional teams in management, R&D, production, sales and services enable Abgen to secure stable product quality, scale expansion, standardized production and fast delivery.

Under the leadership of such a trusted brand, the Absenese have been devoting themselves to building it into a global leading brand providing LED applications and services

Ipsotek, an Eviden business, is a global leader in AI-powered Video Analytics, transforming video data into real-time, actionable intelligence for safer, smarter environments worldwide. With over 20 years of innovation, patented technology and deployments in 44+ countries, Ipsotek's VISuite technology enhances situational awareness and decision-making across diverse industries.

Ipsotek's comprehensive portfolio includes real-time analytics and reporting, crowd and traffic management, automatic licence plate and face recognition, perimeter and intrusion monitoring, and advanced forensic analysis. With the integration of cutting-edge Generative AI, Ipsotek continues to elevate contextual understanding and operational insight in complex and dynamic environments.

As part of Eviden, Ipsotek powers the group's Vision AI offering, contributing to a global portfolio of innovation in AI, data and security.

Sunbird Software is changing the way data centers, colos, and edge sites are being managed. With a focus on real user scenarios for real customer problems, the company helps operators manage infrastructure planning, asset tracking, site monitoring, and change management faster and more efficiently than ever before, while saving costs and improving availability.

Its elegant software is rooted in deep connections with customers who share best practices and participate in user groups and the product development process.

Belden Inc. delivers complete connection solutions that unlock untold possibilities for our customers, their customers and the world. We advance ideas and technologies that enable a safer, smarter and more prosperous future. Throughout our 120+ year history we have evolved as a company, but our purpose remains – making connections. By connecting people, information and ideas, we make it possible.

Belden serves various industries, including Data Centres, Industrial Automation, Smart Buildings, and Broadband.
